

## MIRAI 2.0 Research and Innovation Week 2022 Parallel Session Ideas, Ageing TEG (Draft 1)

### **Primary Theme: TBD**

#### **Topics:**

1. Biological aspects of ageing
2. Psychosocial aspects of ageing
3. Technological aspects of ageing
4. Other aspects of ageing

### **Features of the Ageing Parallel Sessions**

#### **Feature 1 – Keynote Lecture(s)**

- Inviting a speaker from the Japanese side, possibly from outside academia who might be associated with robotics and/or entrepreneurship
- Having another speaker from the Swedish side may be considered

#### **Feature 2 – Workshops (Panel Sessions) and Paper Presentations**

- Workshop(s) on registries and longitudinal studies
- Paper Presentations on topics related to ageing. Young researchers are especially welcome to participate, and the CFP will be made available by the summer

#### **Feature 3 – Opportunities for Young and Early Career Researchers**

- Ageing TEG welcomes young and early career researchers (including students and postdocs) to join any of our sessions.  
In particular, we encourage ECRs to participate in
  - Workshops and panel discussions
  - Paper presentations
  - Networking sessions
- Networking sessions hosted by ECRs
  - We plan to facilitate ECRs to host networking sessions. Two ECRs (one from Sweden and the other from Japan) will be paired to organize a session, which we hope will become a way of exercising international collaborations

#### **Feature 4 – Networking and Other Activities**

- “Conversation Lounge”
  - We plan to create the time and opportunity to communicate in a casual setting where the participants can freely exchange ideas for collaboration

- Recreational Activities
  - A short session where the participants can experiment with recreational activities adopted at Japanese elderly care institutions
- Extracurricular Activities and Fun
  - Ageing TEG plan to organize a joint dinner or activities in the evening of November 16, the first day of the Parallel Session. It is an opportunity for the participants to explore an evening of Japanese culture and Fukuoka by experiencing local food, drinks, nightscape and more.

Wednesday, November 16	
AM	Keynote Lecture(s)  Paper Presentations I
11:30 – 13:00	Lunch
