

MIRAI 2.0 Research and Innovation Week 2022
Parallel Session Ideas, IEAG (Draft 1)

Primary theme: TBD

Features of IEAG Parallel Sessions:

1. Lean Canvas (or similar) Method Workshop

- This session is a follow-up to the Digital Workshop for Greater Impact which took place on the 3rd of March 2022 and therefore will be dedicated to the seed funded research teams.

2. Seminar on Intellectual Property

- This event aims to describe and compare the Japanese and Swedish systems concerning the intellectual property and to have an open discussion on the topic. Relevant speakers will be invited for this session both from the Swedish and Japanese sides.
- The seminar will be relevant for the seed funded researchers but will also be open to all MIRAI 2.0 researchers.

3. Research presentations related to Entrepreneurial Processes and Entrepreneurship Education

- In this event researchers will present their research on entrepreneurship topic. This could create potential contacts between the researchers attending the event for future projects.
- IEAG is planning to issue a “call for presentation proposals” to find interested researchers for this session.

4. Panel Discussion of colleagues who succeeded to build up the startup companies

- Success stories of startup companies, both in Sweden and Japan will be presented. After a presentation of the companies and their “success stories”, there will be a panel discussion.

Schedules: TBD
